

Rallye through the OZEANEUM

Information for group leaders

Join us for an underwater journey through the Baltic Sea, North Sea and Atlantic Ocean all the way up to the polar zone! Beside the two large aquariums-tours with numerous show-tanks you can discover various exhibitions.

The *Rallye through the OZEANEUM* provides many interesting questions to guide you through the museum. The blue symbols on the questionnaire show you the way along the tour and help to find the correct answers.

When a new symbol turns up on the questionnaire, the following questions can be solved in the next part of the museum. Starting point is the escalator.

Some tips to prepare the rallye for groups:

- **Teamwork!** Team up two students for the rallye.
Copy enough questionnaires for all the teams!
- **Pencils?** Bring pencils for all the teams.
- **How long?** Allow 90 minutes for the questionnaire.
- **Meeting place?** Agree on a meeting place for the end of the tour!
- **Consideration!** Many other guests want to visit the museum undisturbed, too.
- **No jams!** To avoid jams, please send at most 20 students at once.
Additional groups can start 10 minutes later.
- **Right answers?** The answers for the rallye can be received by e-mail:
museumspaedagogik@ozeaneum.de. For the printed version
please ask at the information desk of the OZEANEUM.

Have fun solving the questionnaire and comparing your answers. Good luck!
